

### T-Rex Limited edition drivers.

Harbottle Audio has a full commitment to service all of our clients and their equipment, regardless. This means that limited edition or limited run drivers still come fully backed by our company, so your interests are always protected and covered.

Why "T-Rex"? Because the predecessor to this driver was named the TLD, after the client that showed faith and invested in us to build an absolutely unhinged 18 inch driver. This is the step up and out, into total beast-mode, from the original. So T-Rex is just fitting to its nature.

M121BL	Parameter	Unit	Value	Quantity available : 4
	Fs	Hz	24
